

Threadbay

Outcome-priced AI for the small-business front desk.

The gap:	Calls roll to voicemail. Follow-ups slip. Bookings die on the floor. Most small front desks only catch the calls they happen to be standing next to a phone for.
Outcome 1 missed-call text-back:	The caller hears from you in under 60 seconds, on the channel they reached out on and the conversation is kept warm, not rerouted.
Outcome 2 follow-up cadence:	Cold leads get nudged on a 7-day cadence until they book, opt out, or stop responding. Nothing sits in a CRM unreplied for a week.
Outcome 3 booking handoff:	Qualified leads land directly in the right calendar slot, with the right context no manual triage, no after-hours callback queue.
Pricing shape:	\$297 Starter \$597 Growth \$997 Pro per month. Outcome-priced. No per-seat surcharges. No per-minute metering on the base retainer.
Reach us:	threadbay@polsia.app threadbay.polsia.app. Replies within one business day no triage bot, no canned response.

Take this one page with you when you leave the call. Print, forward, or leave it on the desk same numbers, same scope, same answer when the team compares notes next week.
